Hi Clive,

Thanks for the quick reply – we understand and will be on the look out for the agency's comments when the time comes.

Best,

Taylor Nations

Hi Taylor, Thanks for your note.

EPA has the petition and will respond at the end of a 90-day timeline. We are in a deliberative period and cannot divulge the nature of those deliberations. We will meet with stakeholders on this topic, but we will be in listening mode only.

Sorry for the rigid nature of this email. I don't have an option but to respond this way. Happy to meet if that is helpful. (But, of course cannot say much.)

Clive

Subject: PVA petition

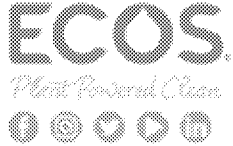

Hi Clive,
I hope all is well with you!

I'm sure you're familiar with the new campaign and study put out by BlueLand, and the subsequent petition to the EPA <https://actionnetwork.org/petitions/podsareplastic/> to further study the environmental impact of PVA and remove the ingredient from the SCIL list.

We were curious if the Safer Choice team has taken a stance on this matter or if your team has comments to share that can help us further understand the agency's view on the ingredient?

If getting together on a call is helpful, please let me know!

Best,

Taylor Nations
